

March 28, 1986

Mr. Robert J. McCroskey  
2925 W. Grand  
Springfield, Missouri 65802

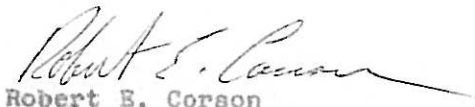

Dear Mr. McCroskey:

On a recent occasion, Surveillance and Enforcement personnel from this office investigated a complaint and found a substance resembling crank case oil had apparently been placed or discharged into the drainage ditch in front of your property. This office has no way of knowing who might be responsible at this time.

Please be advised that if this spillage is due to any activities on your part, this constitutes a violation of City, State, and Federal law. The laws contain severe penalties for the discharge of oil or petroleum products. This office maintains periodic surveillance throughout the corporate limits of the city, and will watch this area closely. If the discharge described is not due to any activity on your part, you can help significantly by reporting any such activities immediately to this office.

If we can be of any help or can answer any questions, please do not hesitate to call us at 864-1924.

Yours truly,

Robert E. Corson  
Water Pollution Control Inspector III  
Surveillance & Enforcement
